Annual Conference

2017 CFTA Conference Information

2017 Conference

August 1-4, 2017

Edgewater Hotel | 1001 Wisconsin Pl, Madison, WI 53703 | (608) - 535 - 8200

Keynote Speaker

Paul Aubin

Paul F. Aubin is the author of many Revit book titles including the widely acclaimed: The Aubin Academy Series, Renaissance Revit and Revit video training at www.lynda.com/paulaubin.

EARLY BIRD Registration | **\$595** | January 5th - February 28th

REGULAR Registration | **\$645** | March 1st - June 30th

*LATE Registration | **\$695** | July 1st - July 25th

**Late registration attendees not guaranteed conference giveaways*

2017 Conference *pre-conference sessions*

Revit and BIM, what you need to get started

Paul Aubin, [*2017 Conference Keynote Speaker*](#)

AM Sessions

Benefits & Trends of Integrated Workplace Management Solutions

Brian Haines, [*FM:Systems*](#)

Implementing BIM for Higher Education Owners

TJ Meehan, Vice President of Professional Services, [*CADD Microsystems*](#)

— *This session has been developed by [*Autodesk*](#) and their partner [*CADD Microsystems*](#) —*

PM Sessions

Exercising the Esri platform to plan, operate, and share your campus

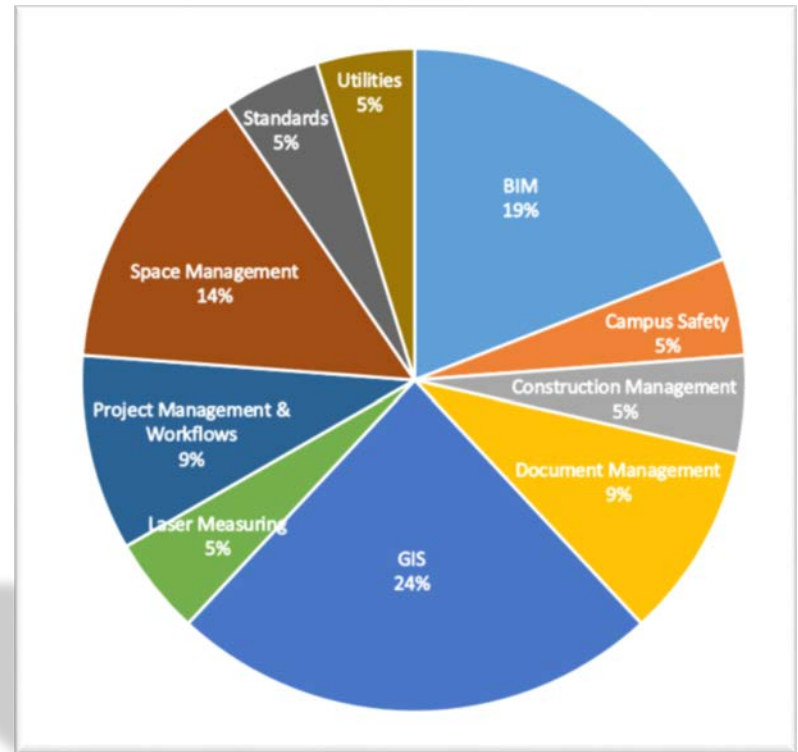

George Dailey, Education Program, [*Esri*](#)

Eric Wittner, 3D Content/Development Team, [*Esri*](#)

Shane Matthews, Community Maps Program, [*Esri*](#)

2017 Conference Abstracts

GIS	24%
BIM	19%
Space Management	14%
Document Management	9%
Project Management & Workflows	9%
Campus Safety	5%
Construction Management	5%
Laser Measuring	5%
Standards	5%
Utilities	5%

2017 Conference Agenda

AGENDA OVERVIEW

- **Monday** - CFTA Executive Board Meeting & Strategic Planning (8:30am-5pm)
- **Tuesday** - Pre-Conference Sessions (8:30am-5pm) | Welcome Reception (6:30-8:30pm)
- **Wednesday** - Keynote & Presidential Plenary (8:30-9:45am) | Sessions (10:00am-5:30pm)
- **Thursday** - Sessions & All Member Meeting (8:30am-2:30pm) | Special Presentation & Tour (3-6pm) | Special Event (6:30-10pm)
- **Friday** - Raffle Giveaways (8:15-9:15am) | Unconference & Roundtable Sessions (9:30am-11:30am)

2017 Conference Tour

An award-winning 856,000 square foot, 11,400 seat underground auditorium with the ability to expand to 14,000 seats. Excavated into a hillside, the auditorium extends 74 feet underground and is covered by an eight-acre green roof with vertical glazing for daylight. The column-free roof is supported by 25-foot-deep trusses spanning 285 feet. The auditorium's foundation systems include an 80 foot tall earth retention system composed of a combination of soil nail, counterfort, and cantilevered retaining walls. The auditorium also features an 800 foot long wall that incorporates sections of glass within large "stone" masses. A series of steel curtain wall elements span openings within and between the sculptural rock forms.

Mission Statement

The identity of the Campus FM Technology Association exists in the combined talent and experience of its members and their willingness to use their knowledge to serve one another through sharing and collaboration. The unique character of the Association lies in its focus on the development and application of the tools of technology across multiple disciplines for the planning, development, maintenance, and management of campus facilities. It is our mission to serve our members and society at large by facilitating the success of our constituents.

CFTA's Five Overarching Goals

1. Be the professional association viewed as the recognized authority on the application of technology in campus FM (Facilities Management) enterprises.
2. Be the foremost clearinghouse of resources for campus professionals involved in applying or using the tools of technology in their work.
3. Be the first organization of choice from which to draw experienced leadership in dealing with issues of implementing and managing campus FM technology-related activities.
4. Provide the industry with the most robust environment available for networking people on every professional level who develop, implement, support, manage, or use technology for FM work in campus environments.
5. Successfully foster support and understanding among management and middle-to-upper-level administrators for technical staff, their work, needs, and capabilities.
